## WATER HEATERS

## Residential Line

## ULTRA-LOW NOx Residential Gas Water Heaters

Available in 40 \& 50 Gallon Models

## - FEATURES -

- ULTRA-LOW NOx BURNER - Complies with Southern California SCAQMD 2008 Rule 1121 and Northern California BAAQMD 2009 10ng/J NOx emissions requirements.
- VAPORSHIELD TECHNOLOGY - Shuts off gas and air supply to heater to prevent prolonged vapor burn in combustion chamber should accidental or unattended ignition of flammable vapors occur outside the water heater.
- PIEZO IGNITER - Affords push button pilot lighting in lieu of matches.
- MAINTENANCE FREE - No periodic cleaning of combustion air inlet necessary under normal conditions.
- STANDARD THERMOCOUPLE - Design provides for use of either factory supplied thermocouple or standard replacement thermocouple.
- SELF-CLEANING - Turbulence inducing cold water inlet-tube engineered to diminish hard water area sediment deposits.
- NON-CFC FOAM INSULATED - Saves energy and reduces fuel costs by maximizing heat retention.
- HIGH EFFICIENCY MODELS - meet energy-efficiency . 62 EF (Energy Factor) requirements of many gas utility rebate programs and comply with CEC Title 24.
- HEAVY GAUGE STEEL TANK - For extra years of trouble-free service.
- GLASS-LINED TANK - Inner tank glass-lined with Dura-Glas ${ }^{\text {TM }}$ and fired at $1600^{\circ} \mathrm{F}$ for optimum protection from the effects of corrosion.
- MAGNESIUM ANODE ROD - To protect tank life.
- FACTORY INSTALLED DIELECTRIC HOT AND COLD WATER CONNECTIONS - 3/4" NPT water connections to extend tank life and for easier installations.
- BRASS DRAIN VALVE - Durable to prevent unintentional breakage.
- FACTORY INSTALLED HEAT TRAPS - Reduces standby heat loss in water piping.
- TEMPERATURE AND PRESSURE RELIEF VALVE - Factory provided $T \& P$ Valve can be relocated from side to optional top opening.
- FACTORY INSTALLED ENERGY CUT-OFF SYSTEM Automatic thermostat with built-in gas pressure regulation also incorporates energy cutoff switch to prevent abnormally high water temperature for added safety.
- DESIGN CERTIFIED BY CSA INTERNATIONAL - To meet or exceed ANSI requirements and tested in accordance with D.O.E. test procedures and meets or exceeds the energy efficiency requirements of NAECA, ASHRAE and all state energy efficiency standards.
- CHOICE OF SIX OR TWELVE YEAR LIMITED TANK WARRANTIES - Includes 6 or 12 Year Limited Warranty on Component Parts.

## SPECIFICATIONS AND APPLICATION DATA

- For 12 year models, change the model number suffix from " 6 " to "12". Example: G-40T-1-3-12 G-50T-2-3-6
- All models meet SCAQMD 2008 Rule 1121 and Nor thern California BAAQMD 2009 10ng/J NOx emissions requirements.
- All models comply with NAECA requirements and are CEC listed.
- Recovery capacity based on actual performance tests.
- All models are certified at 300 PSI test pressure and 150 PSI working pressure.
- Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.

For floor to optional Top T \& P Outlet see dimension "C"

## SAMPLE SPECIFICATION

Water heater shall be AMERICAN STANDARD model $\qquad$ having a storage capacity of $\qquad$
gallons, operate on Natural Gas with a BTU input of $\qquad$ and a recovery rate of $\qquad$ gallons
per hour at $90^{\circ} \mathrm{F}$ temperature rise. Water heater tank interior shall be glass lined with Dura-Glas ${ }^{\top M}$, furnished
with anode rod and insulation shall be non-CFC foam. Water heater shall be CSA certified.
